### Mission

Transform more lives by making self-directed home care easier for all.

### Vision

We support individuals with disabilities or chronic illnesses and aging adults, eligible for public Medicaid assistance, to “self-direct” their own long-term home care. We offer services to self-directing program participants and their care/support workers such as onboarding, filing related forms, tracking time, processing timesheets, calculating employee benefits, paying and withholding taxes, managing compliance issues, payments for services from third parties, and tracking assigned budgets/spending for participants and state/managed care organizations.
